Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Numerous Fry observed in stream at proposed
road crossing (approximate Sta # 393+70). Area is
also potential spawning habitat. Main branch of stream
is approximately 1/4 mile downstream & is also very productive habitat.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
